Everybody is wondering why the BAZAAR is selling their goods so cheap. The reason is they must clear out their spring and Summer goods to make room for the immense stock of Fall and Winter goods which they will soon receive.

The BAZAAR is now giving 12 yards Best American Prints for \$1. Also, six yards 4-4 French and American prints for \$1. At the corner of Main and Requena streets, opposite the U.S. Hotel.

Los Angeles and Independence Road.

Our people appear to be waking up to the importance of this railroad; and well they may. All former railroad projects in which the people of Los Angeles have participated are as nothing in importance compared to this one. The immigration to this country, the progress we have made and the life and prosperity in every department of business, is mainly due to what we have done in building the little lines through our valleys. We have been amply compensated for all we have ever done; but these roads are yet local and have not benefited us except by attracting immigrants and putting our lands in market. Our trade is yet local and must remain so until we are connected with the great back country north and east of us. If through our negligence we suffer that trade to be taken from us, we must forever remain a small people isolated from the great world of trade. We must depend upon our own little farms, gardens and orchards for trade. The richest and most extensive belt of mineral country on the continent lies just back of us. With the immense trade which that country is destined to furnish and which can readily be brought to the cities and towns in Los Angeles and San Bernardino counties, the growth and prosperity of these counties would astonish everybody. But the road itself is perhaps the best investment in our knowledge. From the day it reaches the Mojave valley-a distance of thirty odd miles it would attract the trade for two hundred miles beyond, and its own earnings will be ample to complete the road. We believe that every man in this and San Bernardino county stand ready to assist and all they want is to know that it is to be an honest thing. There has been so much humbugging about railroads that the people are all in doubt about anything connected with them. We want this to be a people's railroad. Let them build it, own it and control it; which they will do if the matter is so inaugurated that they can see there is no humbug in it. Every farmer in the country is to be benefited by it, and will take stock in it. Every merchant, mechanic, hotel-keeper livery. chant, mechanic, hotel-keeper, livery-man and laborer will be benefited, and will help to build it. We want to see the people of the whole country here at the mass meeting on the 11th.

What the Slanderers Have Done.

EDITOR HERALD: I am an old resident of Los Angeles, having lived in this city ten years. I am not the personal friend of Mr. Beaudry, and at the opening of this campaign I had no thought of voting for him. But I cannot endorse, nor do I believe any other conscientious man will endorse, the course the *Evening Express* has pursued toward him. We all know Mr. Beaudry to be an honest man, and the attempt to brand him as dishonorable by those who know the falsity of their statements and know that their at-EDITOR HERALD: I am an old resstatements and know that their attacks on him are for the sole purpose of defeating his election is, I am confident, condemned by every honest man in this city. If worthy citizens who consent to become candidates for office are compelled to submit to the vile attacks of newspapers that would slander a woman if paid for their work, we shall soon find it difficult to induce good men to run for office. I shall now vote for Mr. Beaudry, because I believe it my duty to aid in vindicating the character of a respectable citizen against the vile attacks and false assertions of newspapers that have the reputation of always being for sale to the highest bidder.

The Legal Aspect of the Question It would seem that the gentlemen who manage what is known as the ring, realize that they cannot defeat Mr. BEAUDRY unless they are able to induce the people, or at least a portion of them, to believe the BERNARD slander-a fabrication which the card of Colonel SMITH and the record in the case of DES AUTEL VS. AMAT conclusively proves to be false from beginning to end. But this man BER-NARD is a large stockholder in the Los Angeles Water Company, and his hatred of Mr. BEAUDRY is so great that he will say anything and everything and perhaps, swear to it, in order to injure him. The Star of yesterday morning contains a long string of words which, but for the fact that we are told in the caption is the legal aspect of the question, no one would understand it to be anything but a chapter of misrepresentation transferred from the editorial rooms of the Express to the columns of its coworker in the cause of the ring. The real legal aspect of the BERNARD lot question has either been carefully avoided or purposely overlooked by the gentlemen who are laboring so assiduously to blacken the character of a man who they in one column assert is the owner of many broad acres and a very rich man, and in the next accuse him of stealing, or attempting to steal a lot which the alleged owner admits was of such small value that he never took the trouble to find out whether he owned it or not. With all thinking men this fact will at once dispel the charge of unfair dealing sought to be fastened upon Mr. BEAU-DRY. But the main feature in the case to which we call the attention of this community, is the question of veracity between Bishop AMAT and this man BERNARD. The Star is our authority for saying that BERNARD asserts that until he was informed by Mr. BEAUDRY he was not aware that he ever had any claim to the lot in question. This it is worth while that the candid reader should bear in mind. BERNARD asserts that he did not know he ever had a claim the shore of the bay beyond the dry to any part of the tract, while the record shows that he had years before given Bishop AMAT a parole title, which is a verbal promise tract. The record is confirmed by the Bishop. If any further proof is rethe Bishop, in which was marked a

Earthquake at Winnemucca.

WINNEMUCCA, November 30th.— Several shocks of earthquake visited this place and surrounding country yesternay morning between 6 and o'clock. The first occurred a few minutes after 6 o'clock, and was quite severe, and shook things up very lively. Clocks were stopped by the vibrations, plastered buildings were racked, and the plastering cracked in all directions. The Court House suffered the worst of any in town; the plastering in the second story is badly broken, and in the court-room portions fell to Common Council could not have been the floor. We have learned that sevmisled as to the validity of BER- eral wells in the town, which furnished plenty of water the evening previous, were found totally dry soon afier the earthquake occurred, and have remained dry ever since. In the mines in Winnemucca mountain the miners report that they felt eight distinct shocks, two very severe ones, at intervals of about fifteen minutes.

Bishop—it was spite work, and done through a desire to annoy and if possible injure the Bishop. The motive which prompts him to now deny that he ever owned the lot, and assert that Mr. Beaudry induced him to make application for a deed under false representations, is a wish to defeat the election of Mr. Beaudry and thereby defeat the wishes of the people in the OAKLAND, November 29th.—As the local train was approaching Encinal Station from Alameda, at 5 o'clock today, an elderly lady named Mrs. Brown, living near the depot, at tempted to cross the track, when she was caught by the tender and had both of her legs frightfully crushed and her skull fractured. She cannot live until morning. No effort on the part of the engineer or conductor could possibly defeat the wishes of the people in the appointment of a Board of Water engineer or conductor could possibly have prevented the accident.

WILL COMMENCE ON

Monday, January 18, '75, AT 12 O'CLOCK M.,

FIVE DAYS

The sale will take place on the Rancho Parties desiring to purchase SHOULD BE ON THE GROUND a few days prior to the sale, in order to EXAMINE THE PROPERTY.

Title, UNITED STATES PATENT.

Situation.

"Centinela," with the addition of the "Sausal Redondo," contains 25,000 acres. The boundary of the Rancho commences three and a half miles from the city limits of Los Angeles, and extends to the Pacific Ocean.

Topography.

"Centinela" is made up of one broad, level, fertile valley of over twenty thousand acres, and beautiful fertile rolling hills near the

Soil.

The soil is an exceedingly fertile loam, and is, without exception, the richest and most productive in Southern California. Its vicinity to the ocean insures a crop without irrigation. Excellent wheet has been raised for the last two years upon the hills adjoining the ocean. This wheat field contains 1,000 acres and covers the lightest soil upon the Rancho. There is no alkali or barren land.

Semi-Tropical Fruits.

There are a few bearing orange and lime trees upon the Centinela, and the fruit they produce is of the largest and finest quality. There is an orchard containing 6,000 orange trees three years old, and 1,700 almond, lime and lemon trees. The almond, lime and lemon trees will bear fruit in 1875. The orange trees will bear in five years. There are 7,000 three-year-old orange trees in the nursery near the orehard. Fig, pepper and gum trees grow without irrigation. The entire orchard can be taken care of by three men with six horses. The orchard will be kept undivided by the company to save the expense of each shareholder having a few trees to take care of. Each share will entitle the owner to about 15 trees in the orchard and about the same number in the nursery. The almond, lime and lemon trees will yield an ixmediate return. In five years each orange tree will produce \$20 per annum, or \$300 per share for those now planted. There are flowers in the garden in bloom every day in the year.

Chaan.

A flock of about 14,000 sheep will be kept undivided, to save expenses to the shareholders. This will give about thirty sheep to each share. The sheep will produce, in increase and wool, over \$2 each yearly, over expenses. They will be grazed upon outlying and unsold lands of the company. The "no fence" law is in force in Los Angeles county. Climate. The climate of the Centinela is, without exception, the finest and most equable in the world. It varies but little throughout the year. The mean temperature is about 60 deg. The mercury falls but little below 60 deg. in Winter and rises but little above 60 deg. in Summer. You sleep under one pair of blankets and with your bed-room window open every night in the year.

Agriculture. The soil of the Centinela is admirably adapted for all kinds of grain, vegetables and

Water.

The Centinela creek rises upon the rancho and runs through the northern portion of the tract. It affords an abundance of clear spring water. The source of the Centinela creek consists of several natural artesian springs, showing that artesian water can be obtained by boring.

The Town. A square mile is laid off at an eligible point on the tract, with lots 25x140; avenue 100 feet and streets 80 feet wide.

A stream of water can be brought in so as to supply every lot with crystal, cool, sweet water.

Provision will be made for a College and

Fare. Parties desiring to visit the land should take steamer from San Francisco to Los Angeles; fare, \$12. By inquiring at Temple & Workman's Bank, in Los Angeles, they will be directed to the Panels. e directed to the Rancho.

SAN FRANCISCO, November 28, 1874.

WM. H. MARTIN, General Agent California Immigrant Union—Dear Sir:—I have just visited the "Centinela and Saneal Redonda" Rancho, and driven over the land described in your advertisement. With all my experience in the southern part of California, I have seen nothing to surpass this tract in fertility of soil, becauty of location, and advantage of easy access and salubrity of climate. For purposes of colonization, I know of no large body of land so near a growing commercial centre, in California or elsewhere, to equal it. No part of it is unavailable for farms, orchards or homesteads. It can be subdivided into lots ranging from five acres to several hunered acres and every acre of it can be made productive. Water is abundant and convenient. The land is subject to easy Irrigation; and I can vouch for the fact that it will produce anything that flourishes in Los Angeles or Santa Barbara counties. It is my confident opinion that the value of shares in this magnihoent tract will be quadrupled within two years, such; the quadrupled within two years, such; the water of hard in the course headache in five minutes by applying his valuable Sedative Water, for 25c. The City Fathers are growing untheir term. The meeting yesterday was a sort of millenium in Council affairs-the lion lay down with the lamb, and all were at peace.

The shell-frames at Dewey, Kimball & Co.'s will be raffled off on Saturday between 12 and 3 o'clock. All those who have taken tickets will please be on hand, and those who have not settled will remember that no ticket is sold until paid for.

The Fort Hill reservoir project of the Water Company involving the lease of lot No. 8, Fort Hill, has assumed a quietus. No report on the matter was presented in the Council yesterday and consequently no action was taken concerning it.

A meeting will be held at the County Court room this evening to select two of the candidates before the people for members of the School Board, for whose election a united effort can be made by the friends of education. The meeting will be public and all are invited.

The proposition of the Water Company to purchase lot No. 8, Fort Hill, for reservoir purposes, was rejected by the Council yesterday. The City Fathers rightly concluded that if they should sell the lot they might not so easily get it back again, with a reservoir built upon it, when the Water Company's franchise expires.

A sorry-looking old express wagon was standing in front of a Main street saddlery shop yesterday bearing the placard "Hack for Salt River." The 'hack" had, no doubt, called at the right place but was about five days too early. Next Monday, the express with its full compliment of passengers will go meandering up the briny stream, starting from the aforementioned headquarters.

Mr. De Forest and Dr. Ellis, who lately arrived in this city from Ann Arbor, Michigan, have purchased property in Oakland and will locate there for the present. These gentle-men are highly pleased with Los Angeles and her people and may return and take up their permanent residence among us, but being largely interested in business in San Francisco they are compelled to leave us for the present. They are pleasant and energetic gentlemen, and should they so elect we shall welcome them as permanent residents of Los Angeles.

The committee asked for fur- The words of Mr. Crawford will be country, he is competent to speak advisedly on the subject, and his opinions should command our confidence. Without doubt, nature has provided for us all the advantages topographically or a commercial center. Will we improve them? In his remarks before the Chamber of Commerce, Mr. Crawford said: VIOIN WE MR. CHAIRMAN AND GENTLEMEN:

During the months of May and June

last I was employed by Mr. Temple, Gov. Downey, Mr. Griffith, Dr. Grif-

Sudden Death.

Last evening a few minutes after o'clock Mr. J. M. Smalley, a guest of the Clarendon Hotel, was stricken with apoplexy and died within half an hour. He was apparently in the best of health a few moments before the occurrence and had been walking upon the street and about the hotel. Going to his room, he lay down upon the bed, when he was shortly attacked with an apopleptic fit and expired be-fore any medical assistance could be rendered, a physician arrived only in time to see him breathe his last. Mr. Smalley was a United States Detective and came from Burlington, Vermont where his father is a Judge upon the Supreme bench. He was middle aged and apparently in the full vigor of manhood. He leaves a wife and three children who were at the hotel and in the room with him at the time of his death. The blow which has thus fallen upon them is as terrible as it is sudden-a husband and father torn from them without a moment's warning; in their very presence and yet deprived of the privilege of saying a last farewell. We understand that the deceased was a Mason. and the bereaved family will doubtless receive kind attentions from that fraternity, and upon the departed brother the last sad rites will be bestowed. A small frame building on Spring

street, opposite Turn-Verein Hall, was burned about 2 o'clock yesterday morning. It was occupied as a laundry by one Hung Shing and his force of Chinamen. The building was owned \$250; no insurance. A considerable quantity of linen in the hands of the was incorrect, as our reporter passed about 1 o'clock and saw lights burning within at that time.

Owens River Valley to Independence.

The result of my explorations were submitted to the public in pamphlet form early in July last. In it I reported strongly in favor of the most eastern route via Cajon Pass, which I was satisfied offered advantages as a railroad gateway unsurpassed by any other gap in the Sierras, excepting Gorgonio Summit. This opinion being in the face of adverse reports from other engineers who had preceded me, and being unsustained by an instrumental survey with its carefully chained distances and actual levels, I was ordered to take the field by Mr. Temple early in last October, to ascertain beyond a doubt whether Cajon Pass was as feasible as one thousand dollars, or by imprisonment in the State Prison not exceeding five years, or the state Prison not exc

The friends and supporters of the foregoing ticket are determined to see that a fair expression of public preference shall be had at the coming city election, and in view of the fact that bribery and other corrupt practices have heretofore prevailed in our municipal elections, have, by voluntary subscription, secured an ample fund and adopted the necessary measures to prosecute every offender.

The committee having this matter in charge have employed detectives to aid in the enforcement of the law.
